

The CSW Education Committee along with the STEM ED Community Club at MC, co-hosted the ACS Live Webinar event on "OPIOIDS - Combating addiction with Chemistry", on Tuesday Feb. 27, 2018 at Science West 301, Montgomery College, Rockville campus.

The event was very successful with about 50 attendees. Students took notes, and were engaged in the pre-webinar game activity. They filled out online and hard copy surveys, which were scanned and sent to the ACS office.

Below are some pictures of the event.

In the United States, overdose deaths from opioids have **nearly tripled** in the last 15 years.

In 2016 alone they claimed more than **30,000 lives**.

Discover why this problem has become so **widespread** and how the power of **chemistry** can be used to fight the **rising tide of addiction**.
