

TSCA Reform at 2 Years

Join us for an examination of EPA's many accomplishments, and occasional growing pains, experienced during the first two years implementing the 2016 "Lautenberg Amendments"

Presented by:

ABA SEER Committee on Pesticides, Chemical Regulation, and Right-to-Know; the Committee on and Science and Technology; the American Chemical Society; and the Environmental Law Institute

September 24, 2018

11:30 – 1:30

A panel of comprised of key participants in the development and implementation of the 2016 amendments will be engaged in a lively discussion of the daunting effort required to meet the numerous deadlines imposed by the legislation and the many policy and legal challenges facing both the Agency and the public interest and regulated communities affected by the Lautenberg amendments to the Toxic Substances Control Act. Join key stakeholders in a unbridled conversation about their expectations and frustrations, and hear their meditations on the future.

Panelists:

Michal Freedhoff, Minority Director of Oversight, Senate Committee on Environment and Public Works

Lynn Goldman, Dean, Milken Institute School of Public Health, George Washington University; Assistant Administrator, EPA 1993 - 1998

Dimitri Karakitsos, Partner, Holland & Knight; formerly senior Republican staff, Senate Committee on Environment and Public Works

Jeff Morris, Director, EPA, Office of Pollution Prevention and Toxics

Bob Sussman, Sussman & Associates; Policy Advisor to EPA Administrator 2009 – 2013

Julie Froelicher, Senior Manager, Regulatory & Technical Relations, Proctor & Gamble

Moderator:

Carl Maxwell, Manager Government Affairs

Location: ACS 1155 16th St NW, Washington, DC
